Fountain Square

"Fun Cincinnati Landmark"

Nestled in the heart of Cincinnati, Fountain Square dates to as far back as 1871. Having been the primary locus of the city's civic and commercial nuances, this iconic square has been an integral part of the city center ever since its inception, and array of restaurants, shops and offices lie strewn across its structural expanse. Perhaps the centerpiece of this sprawling square is the incredibly ornate, bronze-cloaked Tyler Davidson Fountain, which was built when local businessman Henry Probasco wanted to honor his brother-in-law. Popularly known as 'The Square', this cherished landmark comes alive with effervescent dusky hues come night, further accentuated by the mellow glow and gushing fervor of the fountain lying in the foreground. With its tagline 'Where Cincinnati Connects' doing justice to its communal, inclusive and spirited tenor, the Square is, indeed, an indelible landmark of the city. Fountain Square has played host to a string of well-known festivals and events including Oktoberfest, and continues to do so.

Cincinnati Museum Center

"All Aboard!"

A huge part of Cincinnati's transportation history, the Cincinnati Museum Center at Union Terminal recounts the significance of this historical building. Built in the Art Deco style, this station was one of the last stations of its size ever built. Since opening in 1933, the station has been transformed and now houses three exciting museums: the Cincinnati History Museum, Museum of Natural History and History, and Cinergy Children's Museum. Great for kids and adults of all interests, the Cincinnati Museum Center at Union Terminal is a can't-miss cultural hub.
